Five Courses That Could Change Your Life

Graduate Certificate in Teaching, Training, and Educational Technology (TTET)

NC STATE College of Education

CED.NCSU.EDU/LPAHE
Box 7801  •  North Carolina State University  •  Raleigh, NC 27695-7801
“Embrace the opportunity to be exposed to the standards of practice and you will be able to move in the direction where you will capitalize on your strengths and make the best impact.”
- Laura

Graduate Certificate in Teaching, Training, and Educational Technology

ABOUT OUR PROGRAM
Delivered 100% online, the TTET certificate consists of five 3-credit courses focused on teaching, training, and the use of technology in a variety of educational environments. Students can tailor the program to meet their needs and gain the knowledge and skills necessary to design and deliver course-related content through face-to-face, technology-enhanced, and e-learning environments. These learning environments can be in community college, business and industry, or other educational settings. The program is designed for the person who has recently advanced in a related position and is without the academic preparation needed, or for those choosing to increase their knowledge and skills in the field for future jobs.

Unique Features:
- 100% online with no on-campus attendance
- Flexible - Tailored to working adults
- Relevant - Uses real-world situations
- Transferable - Apply credits to nationally ranked Masters program
- Economical - Reduced distance education tuition rates

DEGREE REQUIREMENTS
The Graduate Certificate requires the completion of 15-credit hours of coursework. Because most students work full-time, the time to degree will depend on how many classes you take per semester, enabling you to graduate in 9-18 months. The core curriculum for the program will depend on the specialized strand, but include courses such as:
- Adult Learning Theory
- Instructional Design
- Teaching in Online Environments
- Needs Assessment and Task Analysis
- Evaluating and Assessing Learning

SPECIALIZED STRANDS
- Instructional Design
- E-Learning
- Training and Development
- Community College Teaching
- Community College Leadership

FOR FUTURE STUDENTS
Applications are accepted on a rolling basis throughout the year for the first available term. All applications must be submitted via the NSCU Graduate School. A complete application includes:
- Personal statement of interest and desired career goals
- Resume or CV
- Unofficial transcripts from all institutions attended (except NC State)
- Proof of English proficiency for international students

STUDENT PROFILE
Our students come from a variety of industries and possess a wide-range of professional and educational backgrounds. Some key attributes of our students include:
- Majority of the students work full-time and study part-time
- Average age is 39 (40% of students are between 30 and 40, and 40% are over age 40)
- Students pursue the certificate for professional development to enter or advance in their careers

OUR GRADUATES
Program graduates gain entry or advancement to a variety of positions including leaders in continuing professional education, community college teachers, internal trainers in business and industry, consultants, instructional designers, or e-learning developers in a wide range of educational settings. Our graduates are leaders in developing talent, driving innovation, and enhancing the performance of the 21st century workforce.
